

**REMARKS**

The foregoing amendments are made to correct typographical errors and to insert the required SEQ ID NO identifiers associated with each listed sequence. Support for the term “hydrophobic” can be found, for example, at page 52 lines 2 and 17 of the specification as filed. Also submitted herewith in connection with the above-referenced patent application is computer readable copy of the amended Sequence Listing. No new matter has been added by the amendments.

Applicants believe that the present application is now in condition for allowance. Favorable reconsideration of the application as amended is respectfully requested.

The Examiner is invited to contact the undersigned by telephone if it is felt that a telephone interview would advance the prosecution of the present application.
